

Samco Machinery's Fabrication Division: full service, ISO 9001 & Canadian Welding Bureau (CWB) certified. Samco offers 164,000 square foot facility offers advanced technology, high-end equipment, and fully integrated Quality Management System with PPAP capability, Level 1-5. Located in Toronto, our facility has 34-foot clear ceilings and oversized shipping doors, allowing for 9 full automated cranes, lift capacity up to 100,000 lbs. Offering Engineering Solutions, Rapid Prototyping and Manufacturing Services listed. Currently servicing Mining, Military, Automotive, Construction, Injection Molding, Press Manufacturing and more.

<p>- Laser Cutting</p> <p>Bystronic 6KW Fiber Laser, 160" x 80" Bed Size, Cutting MS: 1", SS:1", ALUM:1"</p>	
<p>- Forming</p> <p>MAX 110T x 10'</p>	
<p>Punching</p> <p>AMADA COMA, AMADA PEGA, Includes Auto Index & Flange Tooling</p>	
<p>- Certified Structural Welding CWB 47.1, Division 2 GMAW & FCAW & MCAW</p> <p>- Robotic Weld Cell for Production Quantities</p> <p>- Four (4) Full Welding bays</p>	
<p>- Four (4) CNC Mills</p> <p>Capable of machining up to 20"x 50" from various materials from alum to hardened materials. Machine with a rotary head for machining round parts</p>	
<p>- Six (6) CNC Lathes</p> <p>Capable of machining upto diameter of 18"</p>	
<p>- Three (3) Boring Mills</p>	
<p>- Two (2) Wire EDM Machines</p>	
<p>- Two (2) Automatic Surface Grinding Machines</p> <p>- One (1) Manual Surface Grinding Machine</p>	
<p>- Three (3) Conventional Milling Machines</p>	
<p>- Two (2) Horizontal Saws</p>	
<p>- One (1) Gravity Feed Band Saw</p>	
<p>- Saw Cutting Hydmech S20</p>	
<p>- Two (2) Conventional Lathe Machines</p>	
<p>- Two (2) Paint Booths</p>
