

We are pleased to announce the start of the Commercial Representation and Services of Kent Mexico and Samco Machinery Ltd. in Mexico from 22 May 2020.

For more than 47 years Samco Machinery, a North American organization, continues to be a leading manufacturer of roll forming and material handling solutions to multiple industries. Some of the industries we provide solutions for include: automotive, metal building and construction, transportation, storage, energy, and consumer products. As an exporter to 35 countries around the globe, Samco Machinery Ltd. believes in embracing innovation and in engineering solutions for its customers.

Kent México is strategically located in Monterrey NL, to satisfy the needs of the clients of the mechanical metal Industry in Mexico, in their demand for quality and prestigious products, and the importance of having a certified technical service team that is present locally.

The number one priority for both companies is to provide engineered-to-order solutions specific to customer's needs and budgets. With an ever-changing landscape driving the roll forming industry, it is a tremendous opportunity for Kent Mexico and Samco Machinery Ltd. to leverage shared resources. This will result in providing local certified service and support solutions to roll forming customers.....before, during and after the sale.

With this alliance, we look forward to working closely with the Mexican market on their current and future roll forming needs.
